Other

The stage table is used during theatres, concerts and other scene performances.

The M7-lift table will be located in a shaft and is provided with 4 hydraulic shot bolts, 4 guide rollers and intermediate switches for stops at 3 levels below floor level (highest level of M7-table), where stage equipment is stored.

The reason with a M3,5-lift table above the M7-table is to raise the last 1120 mm from floor level to stage level, where no possibility was to lock the table with shot bolts.

The upper platform has pipe steel framework on 3 sides for wooden panel attachment.
