Basic Information

- Certification: CE

Product Specification

- Model NO.: E. G.: MT-008045-D1/L
- Feature: Insulating
- Transport Package: Wooden Pallet
- Specification: CE
- Trademark: Marco
- Origin: Ningbo, China
- HS Code: 8428909090
- Application: Workshop Crane, Shipboard Crane, Warehouse Crane, Building Crane
- Lift Mechanism: Scissor Lift
- Carrying Capacity: Weight Level
- Moves: Stationary
- Driven Type: Hydraulic
- Running Mode: Stationary
- Customization: Available | Customized Request

Product Description

Marco tilt MLU is a **MarcoLift U-shaped low-profile** model provided with a built-in tilt function with a 40° tilt angle.

The tilt function is mainly applied in work places where it is necessary to gain better access to the goods thus creating an ergonomically proper working facility. Typical application examples are the control function at incoming and outgoing goods delivery and as production working stations. The load can be carried by pallets, crates or boxes.

The power pack is usually sited separately from the lift table so as not to limit the tilt table operation.

Marco tilt MT is a combination of lift table and separate tilt unit.

Marco tilt MT has the same features of those of the chosen lifting table. The tilt unit has a height of 180 mm. Tilt angle 45° or 90°.

The tilt unit can also be delivered, without the lift table, as separate units.

Main Specification:

1. Standard Options

Pump: Europe brand

Control box- dead man control with up/down/E-stop

Cylinder: Marco designing, OEM made, including rupture valve, damping action and pilot valve

Sealing kit for cylinder: SKF brand
