

Custom Size Mini Glass Making Furnace 5 - 19mm Glass Thickness 19 Loads / H

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: OEM
- Certification: CE Certification
- Model Number: OEM
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: Carton, pallet, wooden case or according to customer's package requirements
- Delivery Time: 30 working days
- Payment Terms: 30% deposit + 70% T/T before shipping
- Supply Ability: 20 sets per month

Product Specification

- Max.Glass: 2440*5000mm
- Glass Thickness: 5-19mm
- After-sales Service: Free Installation, Debugging, Training, Maintenance And Repair Service
- Warranty: 1 YEAR
- Application: Architecture, Furniture, Automobile, Household Appliance, Solar Energy
- Productivity: 19 Loads/H
- Name: Mini Glass Tempering Machine
- Highlight: **glass toughening machine, tempered glass oven**

Product Description

Custom Size Mini Glass Tempering Machine 5 - 19mm Glass Thickness 19 Loads / H

Technical Introduction

This glass tempering machine is consisted of Loading section, Heating section, Flat Tempering/Quenching section, Unloading section, Blower System and Control System. The glass sheet enters into heating oven from loading table, and tempered & cooled in flat quench & cooling section after heating. It goes to unloading table to finish process.

A) Loading Zone

- Silicone Rubber rollers for non-scratch loading
- Available with side loading roller
- Pneumatic nested castor table for glass rotation
- Foot pedal advance
- Computer controlled entrance speed

B) Heating Zone

- State of the art energy saving insulation
- Individualized multi-point heating zones
- High Accuracy thermocouples
- Auxiliary heaters at entrance and exit
- Computer Controlled movement displacement
- Included Forced Air Convection
- Protected lower heating elements
- Centralized electric connections
- Double belt roller drives for ceramic rollers
- Included SO₂ gas dissemination system
- Computer controlled heating mapping

C) Quenching Zone

- Siemens controlled blower speeds for air pressure regulation
- Independently controlled upper and lower air knives (distance to glass)
- Energy saving idle-to-full ramp blower function Air Flow
- Oscillation speed & distances controlled by computer
- Perfect air flow control
- Kevlar wrapped transmission rollers
- Acoustic Dampening enclosure

D) Unloading Zone

- Silicone Rubber rollers for safe unloading
- Safety optical switch at end of table to stop glass fallout
- Inspection lights

Product Description

Support Custom Size Mini glass tempering machine

Application

Glass Tempering Machine is mainly used for building glass, architecture glass, home appliances glass, furniture glass, decorative glass, automobile glass ,trains glass ,ships glass etc.

Production Process

Convection Tempered Glass Tempering Furnace **GUARANTEE/ WARRANTY :**

The quality guarantee period for all the machine is 1 year, any damage on the electric parts during the quality guarantee period can be maintained or replaced free, (Except in the course of usage, damage due to human errors). And the buyer will have our forever After- sales service in the future.

Tempered Glass Tempering Furnace Pre-Sales Service

- * Inquiry and consulting support.
- * Sample testing support.
- * View our Factory.

Tempered Glass Tempering Furnace After-sales Service

1. Free Training Help Customers Use the Tempering Oven
2. Free door-to-door Installation and Debugging
3. Free door-to-door Service Twice a year
4. Free Long-life Technical Support
